

CASSADAGA BIKE RACK MODEL #14670-XXBK

- The end frames are fabricated using 2 3/8" OD X 3/16" thick wall steel tube.
- The vertical stall bars are 5/8" OD solid steel rod.
- All welded component fabrication.
- The end frames and vertical stall structure bolt together so the bike rack may ship flat to reduce shipping and handling costs.
- The vertical stalls hold the front or back tire securely.
- Maximum tire width acceptable is 3".
- Powder coat or thermoplastic is the standard finish. (various colors)
