

- Table frame design features incorporate a nontip, nontrip & walk-through design.
- A third frame located at the center of the table provides added support (helps prevent sagging) for the plastic lumber.
- The one-piece welded construction frames are fabricated using continuous MIG welds for strength.
- All pipe and tubing conform to ASTM A513-94, and all steel components conform to ASTM-A569.
- All cross braces are 1" schedule 40 pipe (.133" thk. wall).
- Center, table and seat brackets are 1/8" thk. (12 ga.) steel for all recycled plastic tables.
- A diagonal cross brace (1" sch. 40) and end bracket (3/16" thk.) are provided to support the extended portion of the table top. Also, the diagonal cross brace is bent to allow for knee clearance.
- Assembly fasteners are 3/8" dia. galvanized steel carriage bolts.
- Optional plastic lumber is predrilled and has 3/8" radius rounded corners.
- All exposed corners are chamfered for safety.
- Approximate weights of tables less lumber:
 P/N 11575 = 76 lbs
 P/N 11576 = 106lbs
 P/N 11581 = 86 lbs
